

## SIDE TABLE NO.I

The SIDE TABLE NO.I is an architectural and sculptural take on everyday objects. It is a three level, two-sided table that is designed as a hollow piece minimizing its total weight.

Drawing inspiration from the forms found in The Pedestals Collection, SIDE TABLE NO.I is available in editions crafted from stoneware clay, with the intention to enhance longevity and achieve a natural finish.

Each one-of-a-kind edition is carefully sculpted and finished by hand in Montréal using coiling techniques.
